## Background:

Team Hanson is a martial arts club and community organisation working in the heart of the community since 2014. The club was founded by former British Open Champion, Jay Hanson.

Jay started his martial arts journey at 13 years old and found the perfect sport where he could learn discipline, self control and the fighting arts.

After studying Sports Development at university he decided to start Team Hanson with the aims of helping young people and families in the community through martial arts, youth work and physical activity.
